## Purpose of This Document

This document provides information regarding the announced End-of-Life (EOL) of TOP and MR-Win6530

It is intended provide customers with the following information:

- Reviewing timelines and lifecycle details
- Assessing operational and commercial implications
- Understanding the transition to the successor offering TAMUNIO Access

## Lifecycle Timeline for TOP and MR-Win6530

The following lifecycle milestones apply:

- **End of Sale (EOS):** 30 June 2026
- **End of Life (EOL):** 30 September 2028

During this period:

- Products will enter a maintenance mode phase, followed by extended support
- Updates will be limited to maintenance and defect fixes; no new features or enhancements will be introduced

## End-of-Life Implications

Following the EOL announcement:

- Existing licenses and Service & Support agreements will not be renewed
- Agreements will terminate upon expiration
- Continued use of legacy products will be subject to lifecycle limitations
- Legacy contracts that are not based on a subscription model will be phased out as part of this transition

Customers are encouraged to plan their transition in alignment with their contract timelines.

## Commercial Model Change

TAMUNIO Access is offered under a subscription-based model:

- Includes license, maintenance, and support in one package

- No separate initial license purchase required
- Simplified and predictable cost structure

## Transition to TAMUNIO Access

As part of comforte's product strategy, **TAMUNIO Access** has been introduced as the successor to TOP and MR-Win6530.

TAMUNIO Access consolidates and enhances the functionality of both products into a single, unified platform designed to meet current and future requirements for secure and efficient HPE Nonstop access.

## What This Means for You

Transitioning to TAMUNIO Access provides:

- Continued access to a supported and secure platform
- Improved security posture, including future-ready encryption
- Enhanced productivity for HPE Nonstop system interaction
- Alignment with a long-term innovation roadmap
